Dispute About a Crowd.

most. Pat Healy splits the difference his guess is twenty thousand. Ed Healy watched the roping contest. In opposition idea in a more comprehensive scale, to this it is stated that while a sheen covers more ground than a man, a number of men, in an open field, will cover more ground their an equal number of sheep, another as sheep do. It is the hardest thing imaginable to estimate a crowd of people and people will be differing on the subject till doomsday. If all the adult Wichita, would get together they would make a whopping big crowd, but there would not be 30,000 there. A regiment of soldiers make a great crowd, but the enish war could be lined up around the rop Ing contest ring and yet there would no citizens, including six or seven hundred. This germ, he says, is working on the teams and carriages make a wonderful

People Ride Elevators.

Eufenc Smith, who operates the clevnfor in the Bitting block, kept a record less. week of the number of passengers carried on the elevator on currain days. On Monday this people were carried, and on Tuesday 1257 people rods on the elevator. Mr. Methodist Sunday school asked: sold that the bad weather had refuced the number some, and that he ride on the elevators in a day.

The Oklahoma Habit.

This is an ocho of the cattleen's convention from the Alva Review; John Renfrew and Dick Green took in the sights at Wichitz last week. John says that the Oklahoma fellows were
